

Bruno Electra-Ride™ Elite

Straight Rail Stairlifts

*Turning
Houses...
Back Into
Homes!*

Superior Styling

Elegance

A stairlift that reflects the taste and sophistication of the most elegant homes, the Electra-Ride Elite sets the new standard for residential accessibility. When marvelous features complement classic design, the result is uncompromising quality.

Refinement

The Electra-Ride Elite represents more than a decade of research and engineering. With a honeycomb rail design for improved stability, and visual coded diagnostics to instantly analyze the unit's operational status, the Elite is the epitome of form and function.

Graceful and Compact

The Electra-Ride Elite offers the finest in streamlined, ultra-compact design. Its vertical straight rail installs to within 6 in (152 mm) from the wall. Family members and guests will have no problem using the stairs. The seat height, footrest height and armrest width are adjustable for added comfort. The armrests can be independently flipped up, for easy transfer from a personal mobility device, completing the unit's package of flexible features.

The arms, seat and footrest flip up, creating plenty of space to walk up the stairs.

The Elite's hidden, rack-and-pinion drive system provides a smooth ride, without hesitation, when the unit stops and starts.

Electra-Ride™ Elite

Quality Craftsmanship

Safety

With a rated weight capacity of 400 lb (181 kg), and sensors that detect any obstacles on the stairs, the Elite moves up and down your staircase with power and efficiency. The new offset swivel seat makes the entry and exit position at the top landing safer and easier than ever.

Reliable

Equipped with two 12-volt batteries that are powered by a small, unobtrusive battery charger that plugs into any household outlet, the Electra-Ride Elite provides uninterrupted performance, even during a temporary failure of electrical service to your home.

Electra-Ride Elite Features

The new offset swivel seat makes the entry and exit position at the top landing safer and easier than ever!

The footrest and carriage safety sensors safely stop you, even if the slightest obstacle is in the way while you ride!

The simple, unique design of the rail hides all mechanical components, and installation requires no modification to your staircase.

The two wireless call/send controls make installation simple and clean with no wires running along the wall.

Electra-RideTM Elite

Electra-Ride™ Elite SRE-2010 Specifications

Exceptional Value
